DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance.

The claims have been amended to a method for detecting methylation which requires using an oligonucleotide probe which is CpG-specific and capable of distinguishing between unmethylated and methylated nucleic acid by detecting in real-time during the amplification the methylated nucleic acid based on amplification-mediated probe displacement.

Wittwer, as noted in the response filed December 30, 2005, page 6, does not teach amplification mediated probe displacement. Wittwer teaches hybridization of adjacent probes based upon FRET principles. Therefore, in view of the amendment to the claims to require amplification mediated probe displacement, Wittwer no longer renders obvious the instant claims.

Further, Witcombe, as noted in the response filed December 30, 2005, page 11, does not teach using an oligonucleotide probe which is CpG-specific and capable of distinguishing between unmethylated and methylated nucleic acid by detecting in real-time during the amplification the methylated nucleic acid based on amplification-mediated probe displacement.

Applicants have filed a terminal disclaimer which has been considered and found persuasive.

Thus, in view of the amendments to the claims and the filing of a terminal disclaimer, the prior art neither teaches nor suggests the instantly claimed invention.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (571) 272-0743. The examiner can normally be reached Monday-Friday from 7:00 a.m. to 4:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ram Shukla, can be reached on (571) 272-0735.
